A3 flatbed document scanner
KX-S7097

Powerful flexibility. Fast.

Superior scanning for high-performance industries

The KV-S7097 high-speed, A3 colour scanner is helping to usher in new levels of work efficiency for fast-paced enterprises, large and small.

Thanks to intelligent flexibility that includes one-touch scanning of up to 200 documents, built-in image processing features, and multi-size, multi-material functionality, this model offers exceptional convenience and seamless usability. Saving valuable time, drastically reducing wasted resources, and significantly increasing productivity.

From finance and hospitality, to healthcare and legal operations, this latest addition to Panasonic's market-leading flatbed scanner series has been specifically designed to deliver incredibly fast and affordable scanning solutions to businesses, without compromising on quality.

A new era of scanning intelligence

ADF and A3 flatbed scanning

200-sheet volume

Business card to A3 size

Supports 21-127 g/m² document weight

Pre-programme up to 9 jobs

One-touch scanning

Double-feed detection

Hardware image processing

Auto Rescan and Preview

Long paper (unlimited)

Site Central Manager Suite software

KV-S7097

95 ppm

190 ipm

KV-S7097

Hassle-free and high-volume

An automatic document feeder (ADF) enables duplex scanning of up to 200 sheets in one simple operation, while the flatbed area is ideal for working with thick books or thin and delicate papers. Thanks to this exceptional convenience and versatility, all the effort is taken out of high-volume scanning, freeing you to concentrate on other tasks.

Error detection

A Double-Feed Skip function limits wasted time on paper-feed errors and provides a more valuable scan, by automatically pausing for labels and envelopes. Simply choose to skip, and scanning resumes as normal.

Site Central Manager Suite software

Conduct online scanning status checks remotely, to reduce the demand for individual operator management and maintenance.

Intelligent features for improved productivity

One-touch, pre-programmable settings for up to nine jobs, mean instant activity and no more troublesome, complicated inputting.

Built-in image orientation, 2-page separation, automatic cropping and skew correction features, reduce time spent conducting post-image processing.

Users can scan documents of various sizes all at once using the multi-crop tool, saving valuable time, and paper consumption.

Auto Rescan and Auto Preview features also allow users to review and adjust images without the need for rescanning. So usability couldn't be easier.

Incredibly fast speeds, incredibly good quality

In simplex and duplex, the enhanced KV-S7097 model is able to scan up to 95 ppm/190 ipm – even at 300 dpi quality. So you don't have to compromise on either speed or quality.

Scan multiple sizes and materials

Quickly, accurately and simultaneously scan documents of various thickness, sizes and lengths, eliminating the need to continually set up margin justifications. Freeing up valuable time for more important things, and boosting work efficiency.
